

Academic Enrichment at Sierra College

1. Apply to Sierra College by clicking the “apply” button on the [Sierra College home page](#) and set up your mySierra account when you receive the email instructing you to do so (usually within 24 hours of applying).
You can skip this step and set-up of your mySierra account if you have taken a dual enrollment course or other Sierra courses.
2. Browse the [“class schedule”](#) for courses that interest you. MAKE sure to click on the blue CRN hyperlinks to read the course descriptions carefully and make note of any pre or corequisites. If you are trying to take classes that will count toward your general education once you get to college, take a look at the [Sierra College IGETC](#) (UC/CSU transfer requirements). Taking classes that follow this pattern increases the likelihood that you will earn meaningful college credit.
3. Visit [Sierra College’s “College in High School” page](#) and click on Academic Enrichment.
4. Follow the instructions for “Promise Schools,” making sure you double check the [Academic Enrichment Restricted Course List](#) to make sure you are eligible to take the courses you enter on your Academic Enrichment form.
5. Once you have completed all steps on [Sierra College’s “College in High School” page](#), you will be able to register for classes through your mySierra account during your registration window.

Remember that a semester long class at Sierra is similar in scope to a year-long AP class in high school and that during the summer sessions, that same amount of work is squeezed into the length of a half semester, so don’t overload yourself. These courses and the grades you earn will be placed on your permanent college transcript, make sure you take them seriously.
